

September 24, 2018

To the Town Moderator,

The Bruce Freeman Rail Trail Advisory Committee unanimously supports the Grant of Easement requested in Article 13 at tonight's Special Town Meeting. This will allow Phase 2B to proceed from Acton to Concord, including the new bridge over Route 2.

Construction continues and major progress has been made on Phase 2C, with a projected opening date of April 2019. Phase 2B design plans are at the 75% stage, with a public forum in November to for public feedback.

We as a committee support any and all efforts that will help design, construct and complete this wonderful trail that will be enjoyed for generations to come.

Sincerely,

BFRTAC:

Jim Lyon
Kent Carlson
Suzanne Knight
John Soden
Carol Steele
