

3/7/24

Hi Elizabeth-

I would like to express some concerns about the proposed Residences at Thoreau housing project.

My primary concern is the sheer size of the project, given that it will cover 72% of the 13-acre site, and how it will impact:
the Ground Water Conservancy District
traffic on Forest Ridge Road and Rte. 62 through West Concord
the environment with forest removal and increased fossil fuel use.

I also look forward to seeing a project map that clearly shows the parameters and location of residences on Border Road.

Thank you.
