Charge from the Select Board

Approved: April 16, 2024

Amended: May 20, 2024

Amended: June 17, 2024

Town of Concord
MCI Concord Advisory Board

Goals

The purpose of the Advisory Board is to educate and advise the Select Board on the most effective strategy to achieve a disposition of the MCI Concord property most favorable to the interests of the Town. The Board will rely on community input and the expertise of its members.

Background

The FY25 Recommended Governor's Budget Bill explicitly includes the Closure of MCI Concord (Section 107) and provides for the sale, lease, transfer, or disposal of the property by the Commonwealth's Commission of Capital Asset Management and Maintenance (DCAMM). The budget bill has not yet been approved and is moving through the process. It is reasonable to assume the budget bill will be approved late summer, 2024.

Process Overview 2024-2028

Overview: High-Level Process Overview

- **Competitive process** informed by planning process to select a **private developer**
- Developer will be expected to undertake a **local permitting process**

Committees at Work

Land Use Planning & Strategy	Legislative & Government Affairs	Community Outreach
Recommended a visioning process	Identifying appropriate contacts at state agencies	Refined stakeholder list with 100+ organizations
Approved a timeline for the project	Brought in MassDOT for initial meeting with Town officials and Adv. Board	Sent initial letter to all stakeholders, met with key stakeholders
Developed criteria for reviewing proposals, recommended interview questions	Currently working to engage Mass Historical Commission	Enhanced Town web page, now gearing up for an Advisory Board website
Drafted an RFP for the visioning process	Will work to identify sources of additional funding past FY25	Developing schedule for intensive community input across multi channels

RFP for Consulting Services

Town of Concord

Request for Proposals (RFP 25-2008)

Agency's Response to Our RFP

Project Schedule - FY25

Community Outreach Priorities

Facilitate **effective communication**,
foster **community involvement**, and
ensure **transparency**.

Key Responsibilities

- Stakeholder Outreach
- Public Meetings & Workshops
- Communication Materials
- Feedback Mechanism
- Regular Reporting

Zones of Engagement

Defining 'zones of engagement' helps us identify who to engage with, develop appropriate tools for each zone, and uplift transparency in the engagement process.
