Product I am inquiring about

I have a question about:

Submit

1/2" x 6" Primed Cedar Bevel

FAQ's:

Q: What is the primed finish on here?

A: This product has been factory primed on all six sides with a single coat of gray stain-blocking alkyd oil primer.

Q: Can this only be painted, or can you stain this as well?

A: This primer works for paint or a solid color stain.

Q: What type of Cedar is this?

A: This is made of clear Vertical Grain cedar blocks that are finger jointed to form a solid 16' board.

Q: Is this smooth or rough sawn Cedar?

A: This is a fully reversible product that is both smooth on one side and rough sawn on the other.

Q: What is the exposure and coverage?

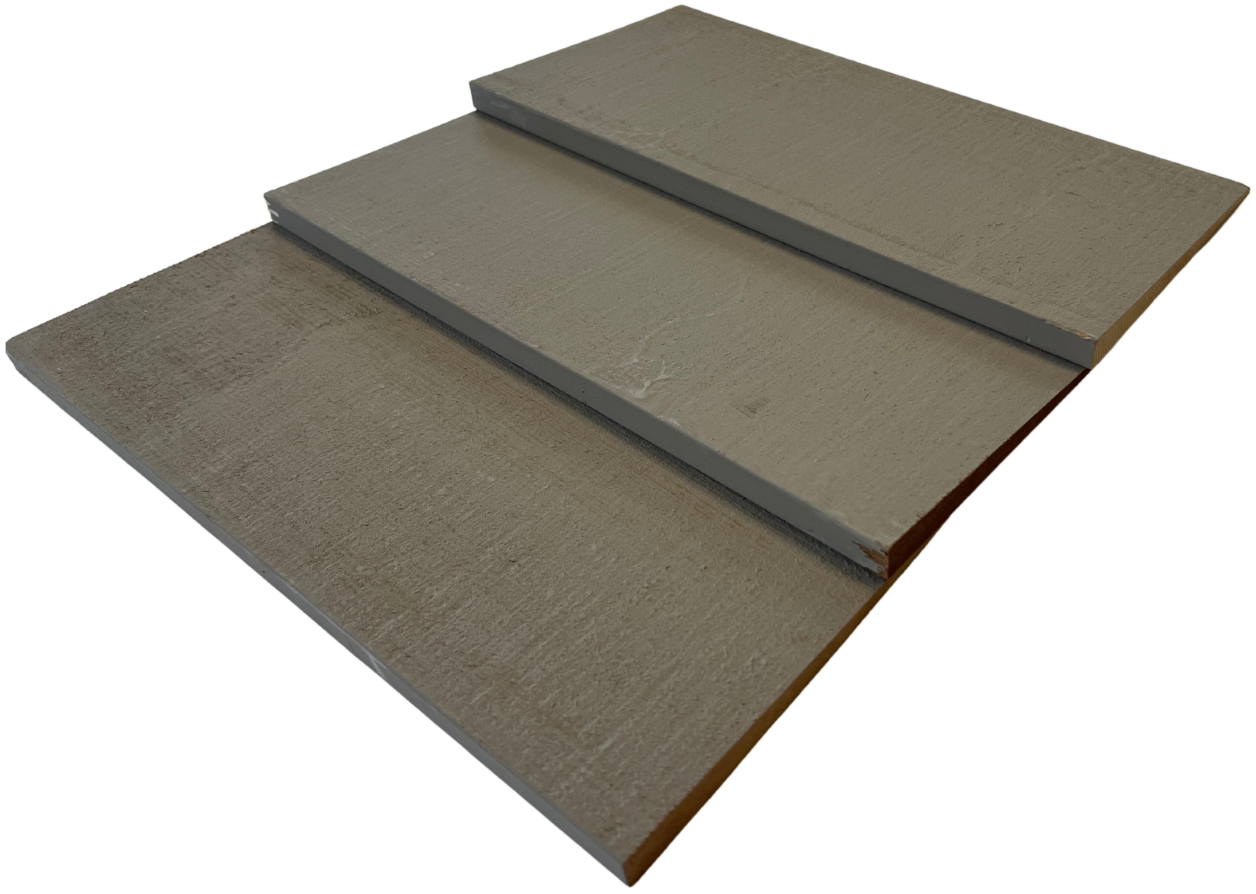

A: When installed, this will have a 4" face exposure. Figure 300 lineal feet per 100 square feet of needed coverage.

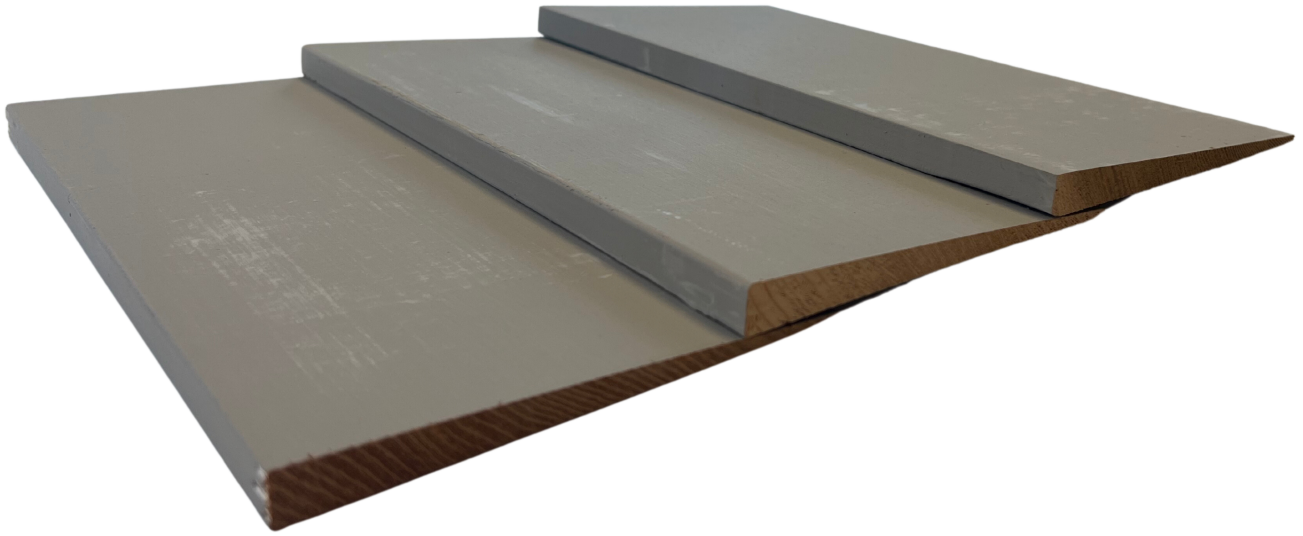

Smooth Face:

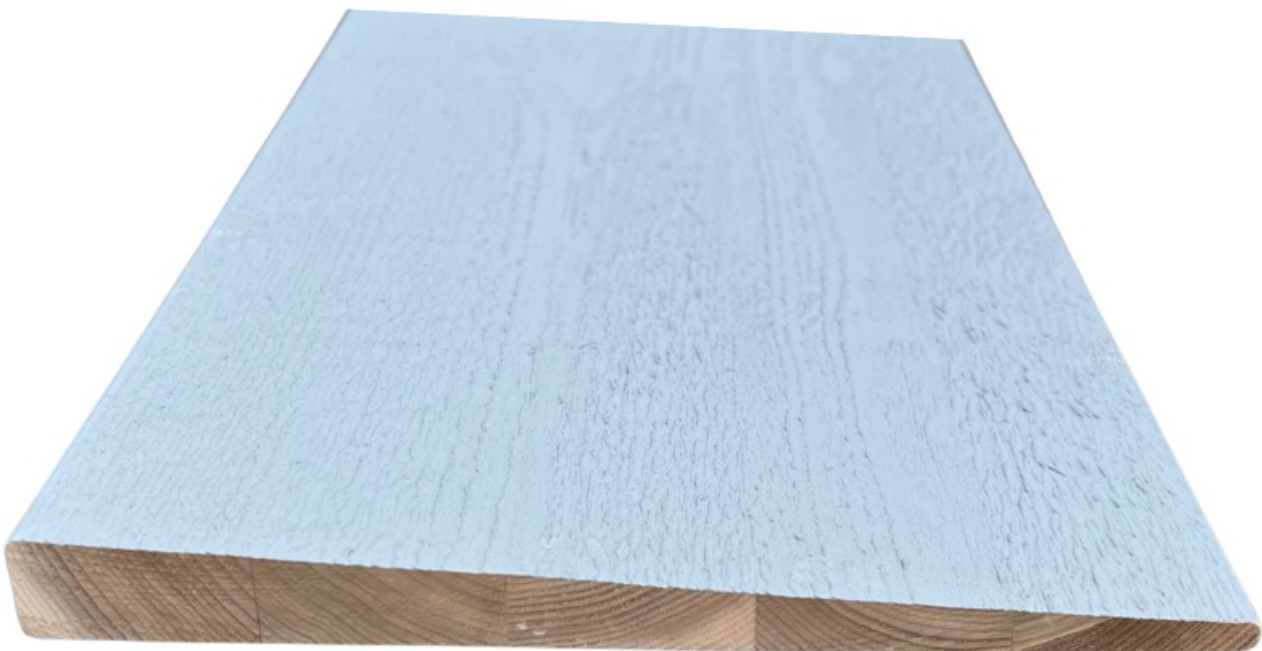

Rough Face:

3/4" x 8" and 10" Primed Cedar Bevel

FAQ's:

Q: What is the primed finish on here?

A: This product has a factory applied primer on all six sides with a 2 stage blue oil based primer with a tannin blocker.

Q: Can this only be painted, or can you stain this as well?

A: This primer works for paint or a solid color stain.

Q: What type of Cedar is this?

A: This is made of select knotty cedar blocks that are edge glued and finger jointed to form a solid 16' board.

Q: Is this smooth or rough sawn Cedar?

A: This is a fully reversible product that is both smooth on one side and rough sawn on the other.

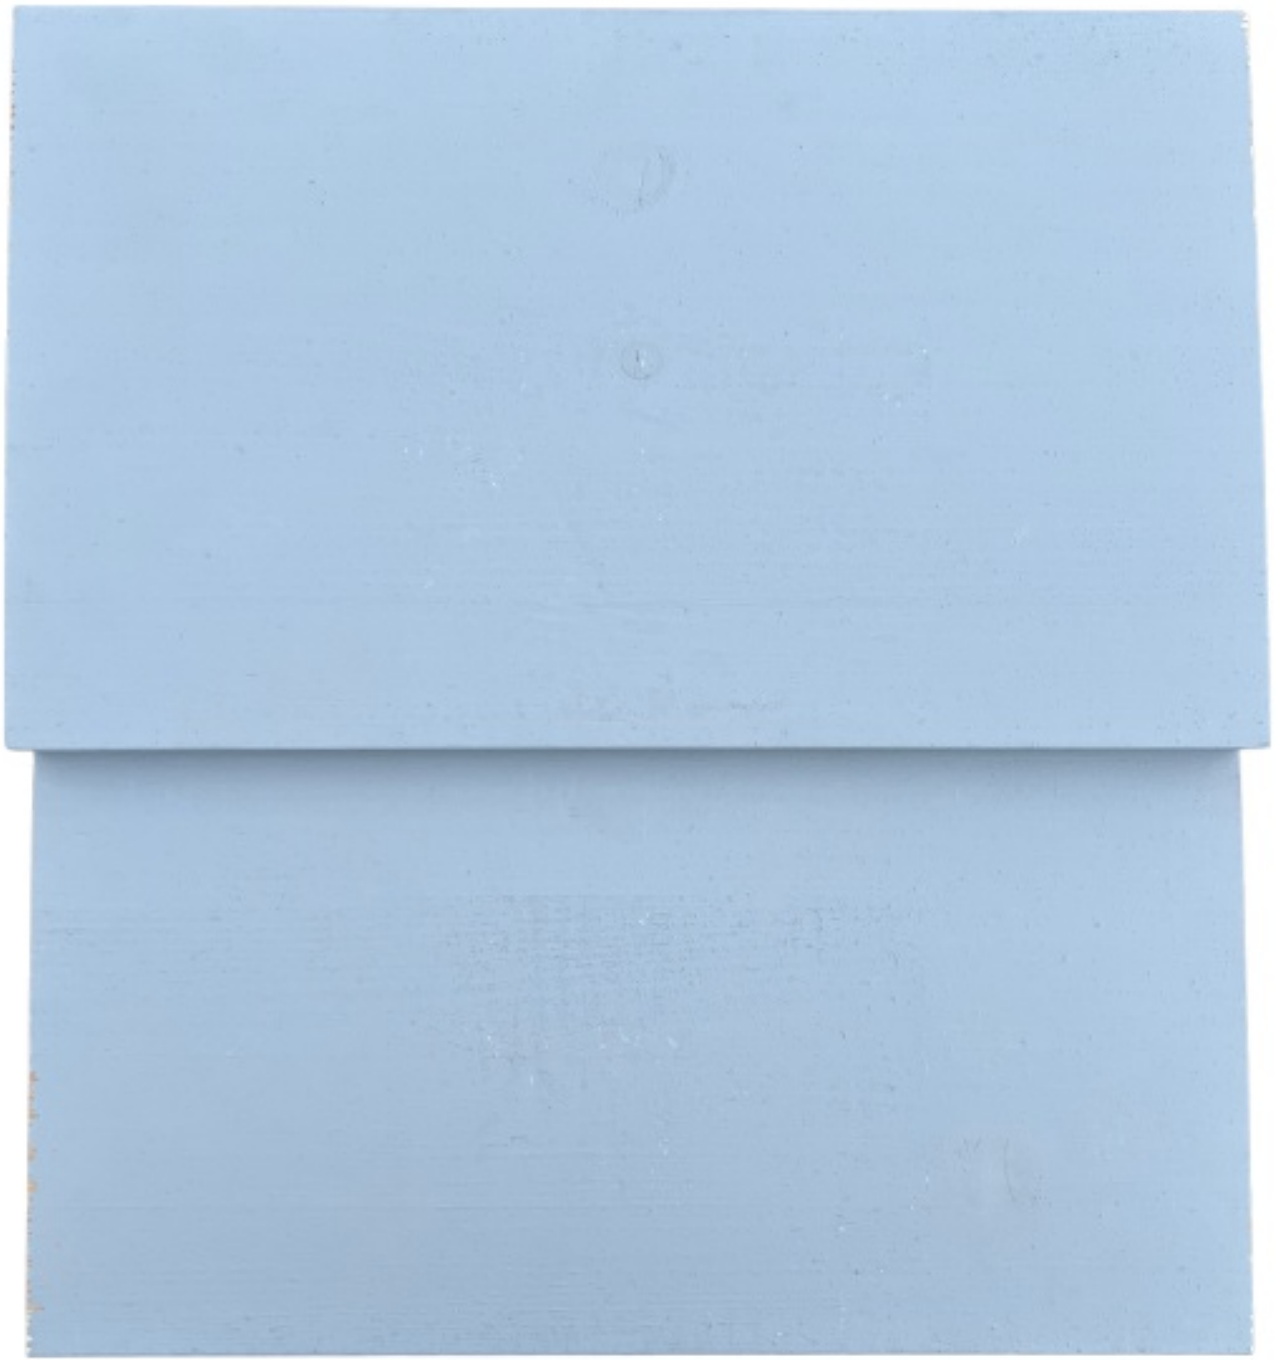

Q: What is the exposure and coverage?

A: When installed, the 8" will have a 6" face exposure. Figure 200 lineal feet per 100 square feet of needed coverage. When installed, the 10" will have a 8" face exposure. Figure 150 lineal feet per 100 square feet of needed coverage.
