

**CONCORD MUNICIPAL LIGHT PLANT
ELECTRIC RATE SCHEDULES**

**POWER COST ADJUSTMENT CLAUSE
Rate Schedule PCA**

Mass DPU No. 511
Replaces Mass DPU No. 495

Effective: April 1, 2026

The Power Cost Adjustment calculated pursuant to this rate schedule is applicable to all energy delivered by the Concord Municipal Light Plant ("**CMLP**"), other than the energy supplied for municipal street lighting service, and private area lighting service. The prices for the above energy assume a base cost for power supply including expenditures for Renewable Energy Certificates of \$0.12969 per kWh. Revenue adjustments are made through the PCA factor to reflect the difference between the actual cost of power supply and the base cost. The PCA factor is applied, as required, in order to equate actual power supply costs with revenues collected through the base rate while maintaining a reserve balance to cover short term power supply costs fluctuations.
