|                                                                                               |                  |
|-----------------------------------------------------------------------------------------------|------------------|
| Applications (service, flow tests)*                                                           | \$ 100.00        |
| Inspection*                                                                                   |                  |
| Water/Sewer Services                                                                          | \$ 150.00        |
| Main/Lateral Extensions (\$/LF)*                                                              | \$ 2.50          |
| Turn-on/Turn-off water service*                                                               | \$ 50.00         |
| Service Call – routine*                                                                       | \$ 50.00         |
| Service Call - non-routine                                                                    | time & materials |
| Tapping/Abandonment of Service - Water or Sewer (standard)                                    | \$ 3,500.00      |
| Flow Test:*                                                                                   |                  |
| Labor                                                                                         | actual cost      |
| Public Notice (newspaper advertisement)                                                       | actual cost      |
| Deposit                                                                                       | \$ 200.00        |
| Meter Fees                                                                                    |                  |
| Installation or replacement of damaged meter<br>(not including routine replacement of meters) | time & materials |
| Testing ( <u>at customer's request</u> )                                                      | time & materials |
| Resealing water meters (where seal is broken)                                                 | \$ 100.00        |
| Sewer Improvement Fee (\$/gallon)                                                             | \$ 40.07         |
| Septage Treatment (\$/gallon)                                                                 | \$ 0.09          |

A deposit may be required for any septic hauler with a history of delays in payment of fees. The amount of the deposit shall not exceed the amount of fees more than 60 days overdue.

\* Fees may be waived for those activities involving municipal services, replacement of lead water services or sewer services over 50 years old; emergency response, or other case by case circumstances as authorized in writing by the Director of Public Works.

**EFFECTIVE DATE:**  
June 1, 2021
